E-mail ID: kankatasaikeerthi@gmail.com

LinkedIn: www.linkedin.com/in/sai-keerthi-kankata

SUMMARY

Motivated and detail-oriented Programmer Analyst Trainee with hands-on experience in AWS Cloud, Linux Administration, and DevOps fundamentals. Passionate about cloud infrastructure, automation, and software development. Seeking an opportunity to apply my technical skills and contribute to organizational growth while expanding my expertise in cloud technologies.

WORK EXPERIENCE

Programmer Analyst Trainee - Cognizant Technology Solutions

June 2025 - present

- Completed training in **CIS AWS DevOps**, gaining hands-on experience with AWS services (**EC2,VPC,Route 53, S3, IAM, CloudWatch**), Linux system administration, Cost Optimization Techniques and networking fundamentals. The training also included practical exposure to **DevOps tools like Git and CI/CD pipelines**, with lab-based assignments focused on cloud infrastructure setup, monitoring, and troubleshooting.
-

EDUCATION

Bachelor of Technology in Computer Science (J.N.T.U.A)

Nov 2021 - May 2025

Sri Venkateswara College Of Engineering and Technology(Autonomous)

- Specialization in Data Science.
- CGPA:9.40

12th Standard (B.I.E.A.P)

June 2019 - Mar 2021

Sri Gowthami Junior College.

- percentage :97

10th Standard (B.S.E.A.P)

June 2018 - April 2019

Sarada High School

- CGPA :10.0
-

TECHNICAL SKILLS

- Programming Languages:** Python, Java Basics.
- Web Technologies:** HTML, CSS, JavaScript ,Bootstrap
- Databases:** MySQL
- Cloud & DevOps:** AWS Cloud, Linux (Amazon Linux), EC2,VPC, Route 53, S3, IAM, CloudWatch, Git, CI/CD Fundamentals
- Automation:** Terraform
- Operating Systems:** Windows, Linux
- Other Tools:** MS Office, VS Code

PROJECTS

Hand Written Digit Prediction – Classification

- Objective: Developed a machine learning model using python and TensorFlow to classify Handwritten digits with 98% accuracy.
- Technologies: Python, Jupyter Notebooks, Open CV, Pytorch, Machine learning libraries.

Plant Disease Identification and Pesticide Recommendation – CNN-based Classification & Recommendation

- Objective: Developed a Convolutional Neural Network (CNN) model using Python and PyTorch to identify plant diseases from leaf images and recommend appropriate pesticides, achieving high classification accuracy.
 - Technologies: Python, Jupyter Notebooks, OpenCV, PyTorch, Machine Learning Libraries.
-

CERTIFICATIONS

- Acheived AWS Certified Cloud Practitioner certification from Amazon Web Services.
 - Obtained a certification in “UI and UX Developer” from L&T Edutech.
 - Successfully completed a certification program at IBM, in “Data science”.
 - Certification in “Excel with python:working with spreadsheet from python” by Infosys Springboard.
 - Completed a certification in “MS-EXCEL” at Skill Academy by Textbook.
-

ACHIEVEMENTS

- Awarded the school topper for SSC examinations with a percentage of 100%.
- Secured state rank 156 in the National English Indian Talent (NEIT) competition, held in the academic year 2017-18 conducted by Indian Talent Group.
- Scored 100% marks and certified as a top performer in the final assessment at the end of internship in “Data Science” at Internshala Trainings.
- Participated in AWS Hackathon, applying cloud architecture skills to develop innovative solutions using core AWS services in a competitive, real-world environment.
